BPIF - Hlahol (11:15 AM - 1:15 PM)

-Conveners: J. Faure

time	[id] title	presenter
11:15 AM	[5355] I3.207 Optical control of the topology of plasma accelerators	VIEIRA, Jorge
11:45 AM	[5356] I3.208 Laser wakefield accelerators as tools for studying extreme conditions	MANGLES, Stuart
12:15 PM	[5429] O3.201 Plasma channel based new laser wakefield staging scheme and radiation source	CHEN, Min
12:30 PM	[5430] O3.202 Inverse Compton scattered gamma-rays from an MeV laser plasma electron accelerator and plasma mirror	HANNASCH, Andrea
12:45 PM	[5431] O3.203 Extremely intense laser-based electron acceleration in a plasma channel	VRANIC, Marija
1:00 PM	[5432] O3.204 Enhanced laser-energy absorption in laser-foil interactions driven by recirculating electron currents	WILSON, Robbie
