-Conveners: A. Granier

| time | [id] title | presenter |
|---------|--|-----------------------|
| 4:30 PM | [5341] I2.307 Fundamental Study of Synthesis of Carbon and Boron Nitride Nanostructures in Atmospheric Pressure Arc Discharges | KAGANOVICH, Igor D. |
| 5:00 PM | [5342] I2.308 Plasma deposition of nanocomposite films with polymeric matrix | BIEDERMAN, Hynek |
| 5:30 PM | [5410] O2.305 Laser induced fluorescence spectroscopy in a nanoparticle forming plasma | VON WAHL, Erik |
| 5:45 PM | [5411] O2.306 Pushing charged dust with an electron beam in a plasma crystal | TICOS, Catalin Mihai |
| 6:00 PM | [5412] O2.307 Low-temperature plasma removal of deposits from fusion first mirrors | SHAW, David |
| 6:15 PM | [5413] O2.308 Emission properties of a point-like discharge in an inhomogeneous gas flow supported by sub-THz radiation | VODOPYANOV, Alexander |
