### MCF - Large Hall (4:30 PM - 6:30 PM)

-Conveners: T. Eich

time	[id] title	presenter
4:30 PM	[5363] I4.116 Effect of magnetic perturbations for ELM control on divertor heat loads and detachment in ASDEX Upgrade	FAITSCH, Michael
5:00 PM	[5364] I4.117 Correlation of the near SOL transport with plasma properties of the confined edge region in ASDEX Upgrade	SUN, Hongjuan
5:30 PM	[5441] O4.105 Physics of power loading on the gap edges of castellated plasma-facing components in fusion reactors	KOMM, Michael
5:45 PM	[5442] O4.106 Role of neoclassical mechanisms in the formation of a tokamak scrape-off layer	ROZHANSKY, Vladimir
6:00 PM	[5443] O4.107 SOLPS simulation of TCV divertor leg length studies	WENSING, Mirko
6:15 PM	[5444] O4.108 Test of the Eich model for ELM energy densities in DIII-D	KNOLKER, Matthias
