

29th Symposium on Fusion Technology (SOFT 2016)

Tuesday 06 September 2016

O3B - Meeting Hall I 1st floor (16:40-18:00)

time	[id] title	presenter
16:40	[49516] O3B.1 The JET Materials Detritiation Facility for reducing radioactive waste liabilities	REYNOLDS, Stephen
17:00	[49517] O3B.2 Options for a high heat flux enabled helium cooled first wall for DEMO	ARBEITER, Frederik
17:20	[49518] O3B.3 SiC-based sandwich material for Flow Channel Inserts in DCLL blankets: manufacturing, characterization, corrosion tests	SOTO, Carlota
17:40	[49519] O3B.4 Effects of simultaneous neutron irradiation and helium injection on microstructure evolution of PM2000	HENAGER, Charles
