

29th Symposium on Fusion Technology (SOFT 2016)

Thursday 08 September 2016

O5B - Meeting Hall I 1st floor (16:40-18:00)

time	[id] title	presenter
16:40	[49540] O5B.1 Post-irradiation high heat flux investigation of plasma facing components	LINKE, Jochen
17:00	[49541] O5B.2 Radio-frequency design of a lower hybrid slotted waveguide antenna	HELOU, Walid
17:20	[49542] O5B.3 Design considerations for future DEMO gyrotrons: a review on related gyrotron activities within EUROfusion	JELONNEK, John
17:40	[49543] O5B.4 Multi-section Traveling Wave Antenna for heating of large machines as DEMO	RAGONA, Riccardo
